Dr Tif Qureshi is back for Dahl Part 2!

We build on that awesome first episode (Episode 16) and discuss:

Contraindications of Dahl Technique

Maximising success

Uses of splints during Dahl Technique - is that even possible? What type? When?

Communicating with our patients

Assessing the Envelope of Function

What if Dahl fails?

Deprogramming prior to Dahl

What if the Dahl wears down years down the line - how to 'recycle' Dahl technique

Influence of Digital on Dahl technique?

On the show, I promised Tif I would share a full protocol case with him - you can see this on my [Protrusive Facebook page](#) here.

PROTRUSIVE DENTAL PEARL

A £30 composite heater! This mug warmer looks really posh and can be used to heat composite and local anaesthetic.
