

Recommended Blogs, Vlogs and Podcasts

Being a millennial dental geek, I do enjoy lots of blogs, vlogs and podcasts related to Dentistry.

I have made a page of **my favourite dental blogs** which include Dentists from all over the globe who inspire me. I think these Dentists should be held in high regard for sharing their knowledge and experiences and sticking their head above the parapet.

If you like to watch Dental related vlogs or read thought-provoking content, do **check them out**.

If you know of any others that are really worth reading/watching, **drop me a line!**
